- I boosted team morale by supporting team leaders and co-workers
- I made follow-up calls to finalise agreements that couldn't be concluded due to missing info

Jan 2015 - Dec 2015

House captain, Student representative

High School

I was responsible for over 300 students in boarding school.I had to mobilise them to clean the living area every morning before school and ensure that the living area remained clean. I acted as an administrator; making room lists, putting people in different rooms, collecting fees, settling disputes, giving regular reports to housemasters, purchasing what we needed for the boarding house. This required good time-management to be able to study and good teamwork to be able to cooperate under pressure.

I worked in a team with representatives of other houses to organise SRC programs (awards, symposium etc.). I presented problems of the students to the attention of the school authorities.

Jul 2013 - Aug 2013

TMF Group

Ofiice Assistant

- I fixed and rearranged physical company archives
- I prepared company soft copy archives to be sent to headquarters
